2022 – Present

### F.G. Degree College

Intermediate (Pre-Engineering)  
2020 – 2022

## Skills

## Languages

- English – Fluent
- Urdu – Native

## About Me

A passionate and driven Computer Science student based in Lahore with a strong foundation in Python, Artificial Intelligence, JavaScript, and C++. I am enthusiastic about building intelligent systems and solving real-world problems through technology. Eager to contribute to innovative teams and continuously grow as a software developer.

## Work Experience

### Python Developer (Intern)

2024 – Present  
*Tech Startup, Lahore*

Developed automation scripts and assisted in building machine learning pipelines. Collaborated with senior developers to deliver clean, efficient Python code for data processing tasks.

### Freelance Web Developer

Self-Employed

2023 – 2024

Built responsive websites for local businesses using HTML, CSS, and JavaScript. Delivered projects on time while maintaining strong client communication throughout development.

**AI Research Assistant** 2023  
*University Lab, Lahore*

Assisted professors in researching NLP and computer vision topics. Implemented prototype models using Python libraries including TensorFlow and scikit-learn.

## Projects

---

**AI Chatbot** Python / NLP

Built a conversational AI chatbot using Python and NLP techniques, capable of answering domain-specific queries with contextual understanding.

**Portfolio Website** JavaScript / HTML

Designed and developed a personal portfolio showcasing projects, skills, and achievements using modern HTML/CSS/JavaScript.
